

Hoddlesden St Paul's CVC Primary School Year 6 Spring 1 Home Learning Overview

As God's family, together we achieve

Task 1	Create a television advert to encourage people to stop smoking. You will need to discuss the negative effects that smoking can have on the body and think about how you can persuade your audience.
Task 2	Write a poem about the deforestation that is happening in rainforests. You can choose which style of poem you would like to write. For example, you could create an acrostic poem using key words or a free verse poem. Remember, poems don't have to rhyme!
Task 3	Design a healthy, balanced meal. Think about the different food groups from the eatwell guide that you could include: carbohydrates, dairy, protein, fruit and vegetables, oil and spreads.
Task 4	Draw portraits of your family members in the style of Chuck Close, using the grid technique that we practised in school. Can you make it look photo-realistic?
Task 5	Find objects in your home to photograph. Think about things that have interesting patterns or textures. Use the tools on your device such as saturation, brightness and contrast to edit your images.
Task 6	Investigate the nutritional value of some of the foods in your house. Choose an item and look at the packaging to find out information about the contents of the food. How would you describe it? Do you think it is healthy? Why or why not?

Notes

Each task is equivalent to 1 hour of additional learning a week. If you would like to spend more time on a particular task that interests you, that would be GREAT! In addition to the chosen tasks, children will have weekly Reading, English and Maths learning. Remember to upload your homework to Seesaw!
