

Hoddlesden St Paul's CVE Primary School Year 6 Autumn 2 Home Learning Overview

As God's family, together we achieve

Task 1	How eco-friendly is your home? Do you use energy sustainably? Do you recycle? Make an action plan to show changes that you could make in your home to be kinder to the environment.
Task 2	Practise counting to 20 in French and spelling the numbers correctly.
Task 3	Make your own shadow puppet show. You could use objects, make puppets out of card/paper or even make shapes with your hands.
Task 4	Imagine you are David Attenborough. Make a video message to show to younger children in school to educate them about the effects of climate change and the positive choices that we can make for our planet. Think about the audience – they are younger so you don't want to scare them! You need to encourage them to make good choices for the environment.
Task 5	Choose one of the following themes of advent: hope, peace, joy or love. Write a poem about the theme, including your knowledge of events from the Bible. You can choose any style of poetry.
Task 6	Write a newspaper report about our Christmas fair. Think about the features that we have looked at in class.

Notes

Each task is equivalent to 1 hour of additional learning a week. If you would like to spend more time on a particular task that interests you, that would be GREAT! In addition to the chosen tasks, children will have weekly **spellings, times tables and reading**. Remember to post your home learning on Seesaw!
